The Arizona Silver Belt is strongly opposed to the admission of the Mexican ores under the arrangement that has been in vogue for some time past. The Belt advances as an argument that it would revive lead mining in this country, and acknowledges that it would temporarily depress the value of dry ores, but claims that on the whole the exclusion of the Mexican ores would be beneficial to the mining interests of the West and Southwest. The DAILY EPITAPH begs to differ with its contemporary. We believe that anything that will promote the cheap production of silver is of far more importance to our section of country than the raising of the price of lead. It cannot be successfully denied that an increase in the price of any article used in the reduction of ores will raise the cost of handling dry ores, in many cases to such a figure that will cause the shutting down of many mines that are now realizing a small profit by shipping ores. By many well informed people it is believed the movement to exclude the Mexican ores is merely to benefit the owners of lead mines in Colorado, and in case it is done it will shut down more mines, throw out of employment more men and cause a further depression in the silver mining industry of New Mexico and Arizona than can be compensated for by the working of the few lead mines in the southwest.

THE Supreme Court of the Territory has informally rendered a very practical and positive decision as to the validity of the appropriation bill passed by the Fifteenth legislature, and therefore as to the validity of the whole body of laws enacted by the legislature. The decision comes in the following shape:

UNITED STATES SUPREME COURT AND DISTRICT COURT ARIZONA.
J. S. WRIGHT, CHIEF JUSTICE.
PRESIDENT, A. T., Sept. 2, 1889.
Hon. Lewis Wolley, Governor of Arizona—My Dear Governor: Will you please countersign enclosed Auditor's warrant, and be so kind as to present it to the Treasurer? If not paid, have him endorse it and return same to me.

Very truly,
JAS. H. WRIGHT.

The enclosed warrant was for the first and second quarter, and Judge Barnes, of Tucson, has also drawn on the Territorial appropriation for his Territorial salary, making a majority of the Supreme Court which recognizes the validity of last winter's legislative work in a most practical sort of way.—Citizen.

All of the above being true, how is it that the Governor makes it out that the law calling a constitutional convention is illegal? If the Citizen and its friends will inform the public on this peculiar matter we would be much obliged.

THE people of Gila county are, very justly, considerably exercised over a proposition of the people of Maricopa county to construct a dam that would make a lake of a large and fertile section of their county, besides cutting it in two. Gila being the smallest county in the Territory, and a large portion of it being included in the San Carlos reservation, cannot afford to lose any of its territory for the benefit of a rich and prosperous county like Maricopa.

GREAT DAMAGE BY A STORM.

Sunset Cox Expected to Die Any Moment—Mining Superintendent Robbed of \$5,000.

SPECIAL TO THE DAILY EPITAPH.

Killed With a Brick.

BALTIMORE, Sept. 10.—Jno. Korble was killed with a brick by William Chester, colored, last night. Subsequently Chester resisted arrest and was shot by a policeman.

A Superintendent of a Mine Robbed.

DANIEL, Cal., Sept. 10.—J. D. Patterson, superintendent of the Rosemont mine, was knocked off his horse between here and Calaveras and robbed of \$5,000 in gold coin, which he got from the express to pay the miners. The robbers took the horse and started in the direction of Hawley. Several persons are after them.

Another Whitechapel Murder.

LONDON, Sept. 10.—At 5:00 this morning the police found the body of a woman lying at the close of the railway arch on Cable Street, Whitechapel. The examination of the woman shows her legs have been cut off and carried away the stomach was ripped open and intestines lying on the ground. A cordon of police instantly surrounded the spot, but no arrests have been made. Police passed the spot every fifteen minutes. Those on duty last night declare they saw nothing suspicious. Physicians who examined the body state in their opinion that the murder and mutilation occupied nearly an hour. The murder is the worst of the whole series of the Whitechapel murders. The manner in which the limbs were severed from the body shows that the murderer possesses some surgical skill. Later details show there is no blood on the ground where the body was found, and it is evident the murder was committed in some other place, and the body subsequently deposited under the railway arch. It is believed the woman had been dead for two days.

A Great Storm.

NEW YORK, Sept. 10.—Incoming vessels are anxiously awaited for news of the great storm at sea, which has been raging for the past 48 hours. It has been the worst of recent years, made evident by high tides and storm waves which did great damage along the coast. Ferryboats are having much difficulty in making trips. Reports of the great damage done by the storm at high tide last night all along the coast are coming in, and as the tide this morning is higher than last night, it is evident an enormous amount of property has been destroyed. Along the New Jersey coast the low beaches were submerged, and the railroad tracks injured. Atlantic City is completely cut off from the mainland. Several pavilions were lifted bodily from the pilings and destroyed. Reports from Coney Island show this is the worst ever known there. All night long waves dashed over the breakwater at Manhattan and Brighton beach, with a tremendous roar. The Marine railway between the two places was entirely swept away this morning, and not a vestige was left of the esplanade in front of the Manhattan hotel and the tide flows in and out of the basement of the building.

Takes the Stump.

WOODSTOCK, Va., Sept. 10.—Riddleberger took the stump yesterday for the Democratic party.

Death Expected Every Moment.

NEW YORK, Sept. 10.—S. S. Cox is very much worse this morning. Death is expected every moment. Cox's physicians hold a consultation this morning and found him worse, but no reason to fear immediate death unless heart failure occurs.

The Angle Case.

SAN FRANCISCO, Sept. 10.—An amended complaint was submitted in the U. S. Circuit Court today in the case of Deputy Marshal Nagle and his allies Judge Terry had conspired with others to kill Justice Field. The question of jurisdiction of the Federal Court will be argued tomorrow.

Richard E. Taylor Captured.

SAN FRANCISCO, Sept. 10.—Richard E. Taylor, who is charged with complicity in the forgery in which Wells Fargo & Co's agent lost \$1,000 several months ago was captured today on the steamer Australia which is lying at her dock here. Taylor fled to Honolulu and was arrested there several weeks ago and brought to San Francisco on the steamer Australia, but when the steamer arrived in port last Friday he was missing. He was found concealed in the hold today.
